EDUCATION

Chitkara University, Punjab

Bachelor of Engineering in Computer Science

2024 – 2028

CGPA: 9.45/10

PROJECTS

FocusoraHQ

2025

Full-Stack Productivity Platform

- Designed and developed a full-stack productivity platform featuring task management, Pomodoro timer, collaborative study rooms, blogs, and productivity analytics.
- Built a responsive frontend using **React, Tailwind CSS, HTML, CSS, and JavaScript**, focusing on an intuitive and modern user experience.
- Implemented backend APIs, user authentication, and persistent data storage while collaborating through Git and GitHub.

FinPulse AI

2026

AI-Powered Financial News & Trading Analytics

- Developed an AI-powered financial analytics platform delivering real-time market alerts, AI-generated news summaries, and personalized watchlists.
- Built scalable backend microservices using **FastAPI, WebSockets, PostgreSQL, and Firebase Authentication**.
- Implemented a Retrieval-Augmented Generation (RAG) chatbot for market research.

Fitness Planet

2024

Responsive Fitness Website

- Developed a responsive fitness website featuring a BMI calculator and personalized email functionality using EmailJS.
- Designed interactive user interfaces using **HTML, CSS, JavaScript, and Bootstrap** with mobile-first responsive design.
- Strengthened frontend development, UI/UX design, and collaborative development practices using Git.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, C++, C

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Streamlit

Backend: Node.js, Express.js, FastAPI, REST APIs, WebSockets, Socket.IO

Databases: MongoDB, MySQL, PostgreSQL, Firebase

AI / LLM: Google Gemini API, Retrieval-Augmented Generation (RAG)

Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA, Vercel, Canva

Libraries & Technologies: EmailJS, PyPDF, Firebase Authentication

Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Areas of Interest: Full-Stack Development, Artificial Intelligence, Software Engineering

ACHIEVEMENTS

- **300+ DSA Problems:** Solved 300+ coding problems across LeetCode and other coding platforms.
- **3rd Position – DICE Innovation Event (2026):** Built an ESP32-based Smart Lock integrated with the Blynk IoT platform and secured 3rd place among participating teams.
